Angelo Salivio

Computer Science student · Naval, Biliran, Philippines

angelosalivio@gmail.com · github.com/Ialwaysloveu · ialwaysloveu.github.io/my-portfolio

Summary

Undergraduate Computer Science student at Biliran Province State University who enjoys building websites and learning about AI. Hands-on experience comparing image-classification models with TensorFlow and building responsive web pages with HTML, CSS, and JavaScript.

Education

B.A. Computer Science — Biliran Province State University

2023 – 2027 (expected)

Projects

AI Waste Classification System (school project) — Python, TensorFlow, CNN, Xception, MobileNetV2

- Compared 5 CNN models for sorting waste into 12 categories using 6,000 images.
- Xception performed best, reaching 91.7% accuracy.

Flood Simulation Web App for Biliran (thesis project) — Django, GeoDjango

- Developing a web application that simulates flooding in Biliran using the HAND (Height Above Nearest Drainage) method.

Personal Portfolio Website — HTML, CSS, JavaScript

- Built a responsive portfolio with dark and light themes, deployed on GitHub Pages and Vercel.

Technical skills

Languages: Python, Java, PHP, JavaScript, HTML, CSS

Tools and libraries: TensorFlow, Jupyter Notebook, Django, GitHub

Currently learning: React, Next.js, TypeScript

Certificates

- Class of 2026 Certificate — Biliran Province State University, 2026
- Networking Basics Certificate — Coursera, 2026
- 404 IT Competition, Certificate of Participation — 2025
